— LIGHT CONTEMPORARY

SCHEME 02

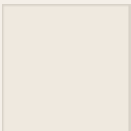

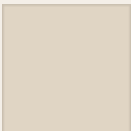

FEATHERBED

LIGHT CONTEMPORARY

Named for the reserve on the Western Head, where milkwood forest meets dune sand. Light like Leisure Isle, but warmer and more tonal — oat, greige and soft taupe layered without contrast, so the interior reads as one continuous material rather than a set of choices. Depth comes from texture instead of colour: fluted stone, looped bouclé, chunky knit, honed limestone, a smoked oak that stays quiet. Brushed nickel keeps the hardware cool enough to hold the warmth in check.

COLOUR PALETTE

	Bone #EFE9DF		Oat #E0D5C4
	Warm Greige #C7B9A6		Soft Taupe #A99885
	Smoked Oak #8E7862		Brushed Nickel #B4B2AE

LIGHT, NEUTRAL AND MODERN

Featherbed suits owners who want a calm, uncluttered interior that feels fresh year after year. Its quiet palette appeals to a wide audience and works with almost any decor, from soft linens to bolder accent colours and artwork.
